

# Citrus Klear

## Industrial Laundry Sourcing Agent and Antichlor

### Description

CITRUS KLEAR is a liquid dual-purpose souring/antichlor agent used to neutralize bleach and alkali residue in the laundry cycle. The use of this product will aid in reducing damage caused by bleach and alkali

### Dilution

Consult your ABC Corporation representative to insure proper usage rates and handling procedures of this product.

Can be calibrated in the Aquatronics system by your ABC Corporation technician to apply the correct dosage to the laundry loads in your facility.

### Directions for Use

- AQUA SOF can be dispensed directly from the container.

Hands-on training for the use of CITRUS KLEAR will be provided by an ABC Corporation representative. Usage amounts will be determined after an audit of equipment and the facility by your representative to ensure the best results specific to your needs.
